PHOTOGRAPHY & FILMS CLUB

LIGHT PAINTING

Our light painting event offers participants the equipment and knowledge needed to capture photos by moving a light source during a long exposure. Participants can demonstrate their skills and creativity by submitting their entries through a Google form. The panel members select two winners for their outstanding work, who receive rewards.

REMIX IT

The contest will take place on the Instagram platform and will require participants to remix an initial Reel provided by the organizers using their own pictures and videos of Zealcon. The entries must be posted online while tagging the organizers. The entries will be evaluated based on the level of engagement on social media and the opinions of the judges on the panel.

PHOTOFILM

In this competition, participants are required to upload 5-10 photographs and tell a story in less than 100 words based on those pictures. The entries are submitted through our social media handles on Google Drive, and the results are announced after shortlisting. There are no restrictions on the genre, allowing students to tell stories from any theme they choose.

Z CANDID

Participants of the contest are required to submit their top shots capturing the essence of the fest within a given deadline after the completion of the event. The submission process involves posting the picture on social media and filling out a Google form. The panel members will assess and determine the winner of the contest based on the best candid shot of the event.

SPADE

ROBOSOCCER

It's time for football, and the engineers have a unique and sophisticated way of playing soccer that nobody else can match. Combining technology and sports is a natural talent among engineers, and to celebrate this spirit, we are introducing an event called Robosoccer. Soccer fans, get ready to experience a brand new dimension of the game. If you're ready for the challenge, prepare your manual soccer-playing robots to compete on the grand stage.

XCELLERADO

We've all witnessed races that involve runners, horses, vehicles, and other entities competing to see who can cover a predetermined course the fastest. However, in this unique type of race, bots will compete for the title of being the fastest. Xcellerado is one of the most thrilling events at Zealcon.

ROBOWAR

Our primary event is Robowars, in which bots battle one another for the championship title. You'll experience the excitement and spectacle of flames and blades clashing, as well as the crowd's roar, as you witness robots attempting to crush each other. This is a game of strength, skill, and intelligence.

ELECTRIQUE

PHOTO BOOTH

Basically, a photo booth is this cool little booth thing that takes pictures of you and your squad, and you can mess around with props and stuff in front of a backdrop. But it's not just any old picture machine, it's way more than that!

JENGA

Okay, so Jenga is like this game where you gotta stack up these blocks and try not to knock them over. It's a test of your physical and mental skills, you know? You gotta be steady and focused. Whoever manages to put the last block on top without making the whole thing come crashing down within a certain time limit wins.

BUZZ WIRE

Buzz wire is a steady hand game that is well known to many as a table top amusement. It is a challenging and competitive game where you are playing the number of touches against time. The player has to get the right balance between speed and skill in order to obtain the a successful score.

SURVIVAL OF THE FASTEST

Survival of the Fastest is a game that tests your reaction time and ability to predict. There are five rounds in the event, and the person who completes the task in the shortest time moves on to the next round.

ACE

TERRAIN TRACKER

The Terrain Tracker event (outdoor treasure game) involves a group of players following a series of clues to find hidden objects or places. It can be considered an evolved way of conducting a civil engineering quiz that will evaluate the knowledge of participants about the discipline of civil engineering, in a way that will test their understanding of the subject.

SMACKDOWN

Humans' unique ability to develop and express their ideas sets them apart from other animals. Smackdown is a well-planned and enjoyable event that emphasizes both physical and mental fitness. One of the most intriguing activities involves constructing and destroying simultaneously using uniform cardboard bricks and a rubber ball, respectively.

POPSICLE BRIDGE

The first day will consist of an introduction to the working process, the appointment of a mentor, and the provision of materials and adhesives. On the second and third days, the team will construct the structure using the supplies we provide (popsicle sticks, glue, etc.). The last day of the project will be used for testing the bridge.

BID AND BUILD

In this event, participants will showcase their knowledge in a quiz covering various fields. Correct answers will earn them fixed points, which will be converted to virtual currency. The top 50 teams will then proceed to the second round, "Place Your Bid," where they will use their virtual money to bid on different items such as street lights, hospitals, and other public infrastructure. The third round, "Great Estate," requires teams to design a smart city based on the items they have successfully bid on. The winner will be chosen based on the quality of their smart city design.
